

AVENTOS HL

Perfecting motion 

The lift up lift system

AVENTOS HL is Blum's new lift up door solution. When opening, the door lifts up parallel to the cabinet. When closing, it glides silently and effortlessly back into place thanks to BLUMOTION.

Because the AVENTOS HL opens parallel to the cabinet it can be used in a wide range of applications, such as, wall cabinets and counter top appliance garage applications.

AVENTOS HL can be raised completely to provide excellent access to the cabinet interior.

Along with high functionality, easy access, smooth opening and quiet closing, AVENTOS HL also inspires through its simple yet elegant design.

Advantages

Opening Action

With AVENTOS HL, even heavy doors can be opened effortlessly.

Quiet Closing

BLUMOTION silent closing is integrated in the mechanism for an amazingly quiet closing every time.

Design Options

AVENTOS HL offers numerous design options including wooden and aluminum doors.

Assembly and adjustment – simple, quick and easy

Fast assembly

With AVENTOS HL, the door can be removed simply and quickly. After the cabinet is attached to the wall, the door can be reattached just as easily.

Easy and precise adjustment

The door can be easily adjusted enabling you to perform side, height and tilt adjustments precisely.

No protruding parts

There are no protruding parts because of the removable arm assembly on AVENTOS HL. This provides improved safety during cabinet manufacturing, transport and installation.

AVENTOS HL

Features:

- Silent and effortless opening and closing thanks to BLUMOTION
- Quick, easy assembly and removal with CLIP technology
- Easy, 3-dimensional door adjustment
- Integrated tension adjustment for door weight
- Calibrated scale for accurate tension adjustment

Benefits:

- Works in both frame and panel cabinet applications
- Special arm assembly for appliance garage application
- Requires minimal force to open and close
- No protruding parts for easier transportation of cabinet
- Easy and precise adjustment of door position and tension

Simple program

The simple program covers all common door widths and heights with 5 different lift mechanisms and 4 arm assemblies. AVENTOS HL is suitable for cabinet widths up to 48" and for cabinet heights from 11-7/8" to 22-3/4"
